RE: Proposed Tall Structure Ordinance

Dear Tazewell County Board of Supervisors,

I support the Proposed Tall Structure Ordinance that will protect our Ridgelines in Tazewell County from the threat of destruction to our Mountains. I have reviewed all the information from both sides as it relates to the proposed wind farm project and find such projects to be primarily for the benefit of the corporations who construct them and of very little benefit to the community.

Please accept this letter as my written testimony for the public hearing that I am in favor of the Ridgeline Protection Ordinance, as written, and would ask the Board of Supervisors to vote unanimously in support of the Ordinance.

Sincerely,

**(Signature Required)*

Deadline for Submission is January 27, 2010
